Security and network infrastructure for government and enterprise.

Gilead Technologies designs, supplies and installs security systems, collaboration rooms, networks and fiber for government agencies, military installations, schools and businesses across the United States.

2017

Founded in San Antonio, Texas

2023

Entered federal and public sector work, starting with the Department of Defense

4

Practice areas, from collaboration rooms to data centers and fiber

4

Certifications: HUB, MBE, DBE and SBE

CAPABILITIES

Four practice areas, one point of contact

01 Secure Collaboration & VTC

Conference rooms, training rooms, operations centers and video teleconferencing, designed, installed and supported.

02 Integrated Security & Access Control

Video surveillance, access control and intrusion detection, integrated on one platform.

03 Networking & Enterprise Infrastructure

Structured cabling, switching and routing, and enterprise wireless networks.

04 Data Center & Fiber Optics

Structured cabling discipline applied to server rooms and data centers: fiber backbones, splicing, testing and certification.

TRACK RECORD
